Federal Aviation Administration

N 3120.117

3/20/97

Cancellation
Date: 3/20/98

SUBJ: **AIR TRAFFIC REFRESHER TRAINING**

1. **PURPOSE.** This notice conveys additional air traffic annual refresher training requirements to be administered as part of the air traffic technical training program.

2. **DISTRIBUTION.** This notice is distributed to selected offices in the Federal Aviation Administration (FAA) headquarters, regional headquarters, the William J. Hughes Technical Center, the Mike Monroney Aeronautical Center, all field offices, the FAA Academy, International Aviation Field Offices, and interested members of the aviation public.

3. **ACTION.**

(a) Air Traffic Managers shall ensure that all air traffic controllers are briefed on the contents of the latest version of Order 7110.65, Air Traffic Control, paragraph 2-1-22, Bird Activity Information, and the importance of adhering to the guidance of this paragraph.

(b) Emphasis shall also be placed on training air traffic controllers on various types of emergencies. This training should be based on real life incidents and aircraft accidents, stressing a lesson learned approach.

C. Roger Wall

Program Director for Air Traffic Operations
